Inspiration Behind the Design

This design, “**One CBC Technology – A Stronger Tomorrow Together**”, represents CBC Technology as one global team, connected across geographies, cultures and disciplines. The globe and landmarks showcase our global presence and diversity, while the people silhouettes symbolize collaboration and inclusion. The connected network reflects how our technology enables a resilient, secure and modern core banking ecosystem. The design highlights our shared commitment to innovate, modernize and create meaningful impact for our customers and colleagues, today and for a stronger tomorrow.
